

# DSTACKER<sup>®</sup> GS

The DStacker GS Pallet Stacker is a revolutionary pallet delivery system that can operate without electrical, pneumatic or hydraulic power! Imagine – a pallet dispenser with **ZERO POWER REQUIRED!**

## INCREASED PALLET DISPENSING PRODUCTIVITY:

- Can Dispense a Pallet Every 10 Secs
- Operator can Reload Pallet Stack without leaving the forklift
- Reduces Pallet Storage Floor Space Requirements
- Will Dispense to Single or Double Deep Walkie Riders

## SAFEST MEANS FOR PALLET DISPENSING:

- Minimizes Hand and Back Injuries from Manual Pallet Handling
- Eliminates Damage From Dropping Pallets onto Floor
- Unique Pallet Containment Mechanism
- Zero Stored Energy at Rest - Industry Leading Risk Assessment
- Improved Workforce Morale
- Helps Lower Insurance Premiums

## ELIMINATES UTILITIES NIGHTMARE:

- Simple 12V DC Battery Power System
- Eliminates Cost of Running Electrical Power Supply
- Zero (\$2 per year) Ongoing Energy Consumption Costs
- Relocate in 2 hours

### A GLOBAL TRULY GREEN SOLUTION

Innovative / Patented Technology That Reduces Carbon Footprint Organizations Can Adopt Globally

### MINIMAL SPACE REQUIRED

7ft by 7ft Footprint Install or Relocate in 2 Hours

### USER FRIENDLY OPERATION

Train New Operators in 5 Minutes!

### BENEFITS

Maximize your warehouse's ceiling height, imagine stacking 50 pallets high without touching a single pallet? Minimize Floor mess and cleanup with the small footprint of a DStacker. 50 pallets can be loaded in as little as a 7"x7" area.

### PALLET SIZES AND TYPES

Available in 20, 30, 40 or 50 Pallet magazines / 4-way Pallets / Standard 48" x 40" or 1200 mm x 800 mm Custom Pallet sizes available, Plastic, CHEP, GMA pallets

### BENEFITS

Do you have CHEP, PECO or 48x40 non-standard or plastic pallets? Dispense up to 6,000 pallets per battery charge at speeds of 12 seconds per pallet. All touch-less. Recharge the battery by plugging into a standard 120V 15 Amp outlet, or use a solar panel. Saving you money.
